Re: Letter of Support

To Whom It May Concern:

This is to confirm that during the last several years I have worked with Wojtek Holownia of BW Art Architects on a number of significant renovations to the facility, which is a 168,000 square foot sport and fitness facility that was designed to support people with a disability.

The projects ranged in size from under \$25,000 to over \$750,000. He was fully responsible for architectural design and coordination with other consultants from the preliminary design stages of the project, to permits, to working drawings and ensuring completion and correction of any project deficiencies.

Throughout the various projects, Wojtek has been highly professional and extremely responsive in addressing design problems and site specific project issues. I look forward to working with Wojtek in the future as additional funding becomes available for other required renovations.

I would highly recommend Wojtek for his services for any architectural design project in line with his professional skills and experience. Please feel free to contract me for any additional information.

Sincerely,

Karen Stintz
